

How to Make a Bedpan

Counseling Card 9: How to Make a Bedpan

You can make a bed pan from local materials such as guard, big clay dish or Jeri can

- Prepare any local material such as guard, clay dish or a Jerican cut into two parts (see photo #1 for ideas)
- The local material used should be light to lift it up, can be sited stable in the floor, and can be easily cleaned. (see photo #2)
- Make sure that the curve of material is smooth or make it smooth by plastering with masking tape or festal (see photo #3)
- Prepare a cover for the bed pan from any local material (see photo #4)
