

# YOO ME TIC KI YAT PII MA GIWLONGO NI PUR™

Karatac Pwonye

The infographic illustrates the four-step water purification process using PUR Purifier of Water:

- 1. ONY**: A hand adds a PUR water purifier packet to a large container labeled "Lita 10".
- 2. RUB**: Two time indicators show "DAKIKA 5" (5 minutes). The first step, "Rub maber", shows a hand stirring the water in the bucket. The second step, "Wek pii ocung", shows a hand pouring water from a smaller container labeled "Lita 10" into the bucket.
- 3. LUR**: A hand pours water from a large container into a smaller one. Text indicates: "Tii ki bongo koton mapek maleng ma ka mo ne pe otuc." Below, it says: "Bol ngeci ne ma iluro ni ki ka cing lutino ki lee."
- 4. MAT**: A clock shows "Kur pi dakika 20" (20 minutes). A crossed-out bucket icon indicates that the water should not be left standing for too long. Text states: "Pe imat kace wang pii ne nen ma ockwakocwak." Below, a bucket labeled "Pii ma giyubu" has a small container being filled from it.

Wiyi opoo ni: Pii ma giketo iye PUR ma gigwoko i jereken ma ngute tidi ma gin wiye mako ning giromo mato ne pi wang kare me nino abiro. Pii ma giketo iye yat i lagwok pii ma doga lac onyo labongo gin wiye ma mako ning giromo mato ne pi wang kare me wang cawa 24 keken (dye ceng acel ki dye wor acel keken).
